ABOUT

HL is a professional cosmetics company offering a wide range of facial treatments providing solutions for most skin types and conditions. The various product lines include treatment series for use by professionals at cosmetics institutes and treatment series for home use. HL products are marketed and sold by aestheticians, beauty clinics, spa chains and hotels.

Since its establishment in 1984, HL's belief has been to strive for professionalism and constant innovation. The experience and know-how the company has accumulated over the years by developing and manufacturing products, as well as marketing them worldwide, are reflected in the brand's multitude of products and their effectiveness. Formulas are developed based on scientific research and clinically researched and tested components, with an emphasis on product safety, quality and benefits. The meticulous production processes take place in a state-of-the-art plant, using active ingredients of the highest-quality while maintaining environmental awareness and responsibility.

The "Always Active" slogan reflects its essential approach: products that are based on active ingredients and provide visible results and a constant commitment to the creation of innovative, effective solutions.

VISION

As a leading professional brand marketed globally, we envisage the development of products that provide actual results and quality of life to our customers. We aim for innovation in cosmetic products based on active ingredients and enrichment of human resources. Therefore, we are constantly innovating and providing know-how and practical experiences to cosmeticians.

VALUES

- Professionalism and innovation
- Quality and a rich variety of advanced treatment solutions
- Concrete results
- Reliability and integrity

PRODUCTION, RESEARCH AND DEVELOPMENT

HL's state-of-the-art production plant manufactures all company products in compliance with GMP production standards and the ISO 9001 quality standard. The production processes at the plant are controlled and supervised at all times by the QA department, which performs inspections and quality control at all stages of the production process.

The HL research and development laboratories employ experienced chemists and pharmacists with relevant experience and training, who are entrusted with developing advanced formulas and constantly improving existing formulas.

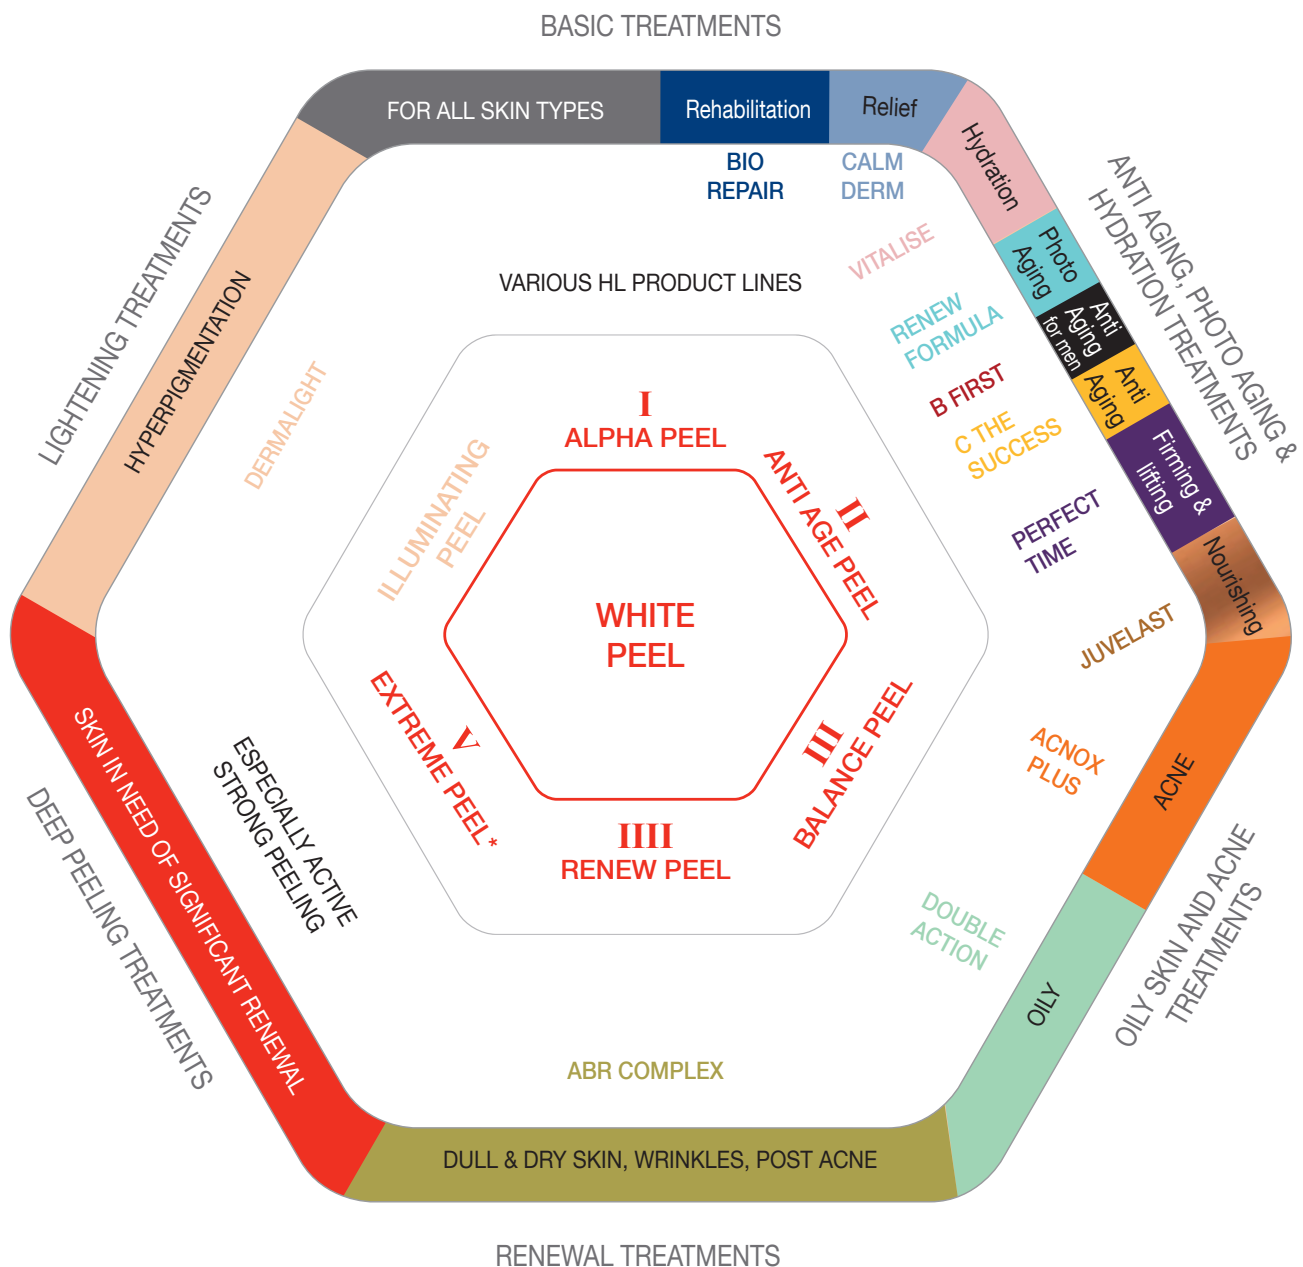

MAP OF THE HL PROFESSIONAL PEELS

HL's PROFESSIONAL PEELS range includes 6 cosmetic peels differentiated in their strength and suitability by the blends of the active ingredients according to the aesthetic condition. Strength by means of the concentration and ratio between the acids, is marked with Roman numerals from the lowest (I) to the highest (V).

Suitability by means of special ingredients chosen according to the treatment and skin condition.

The HL signature protocols are based on 2 peels - WHITE PEEL as the first or second peel during the in-spa protocol and a 2nd peel chosen among PEELS I-III according to the skin condition and benefits desired.

The map shows the possible combinations of HL PEELS for different skin types and in-spa treatments.

PEELING

AT-HOME PEELS

The AT-HOME PEELS line complements the HL signature professional treatments. The peels are designed for at-home use to help expedite cell turnover, dissolve intercellular glue removing dead skin cells and confer healthy, smooth, radiant skin.

The line is intended for a wide range of target groups and skin types, to be selected accordingly to the best suited for individual skin conditions.
